

Rigging

Solar or battery string lights

MODEL: HA098790-0

DESIGN DRAWING

16.4 ft

Shown: 16.4 Ft

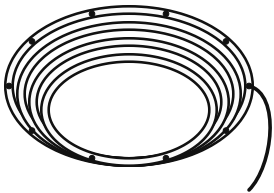

Read all instructions before you start, and keep them for future reference.

**Installation precautions**

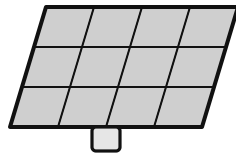

1. Place the panel where it gets several hours of direct sun.
2. Do not open the sealed panel or battery compartment.
3. Keep the panel clear of leaves and snow.

Solar string light

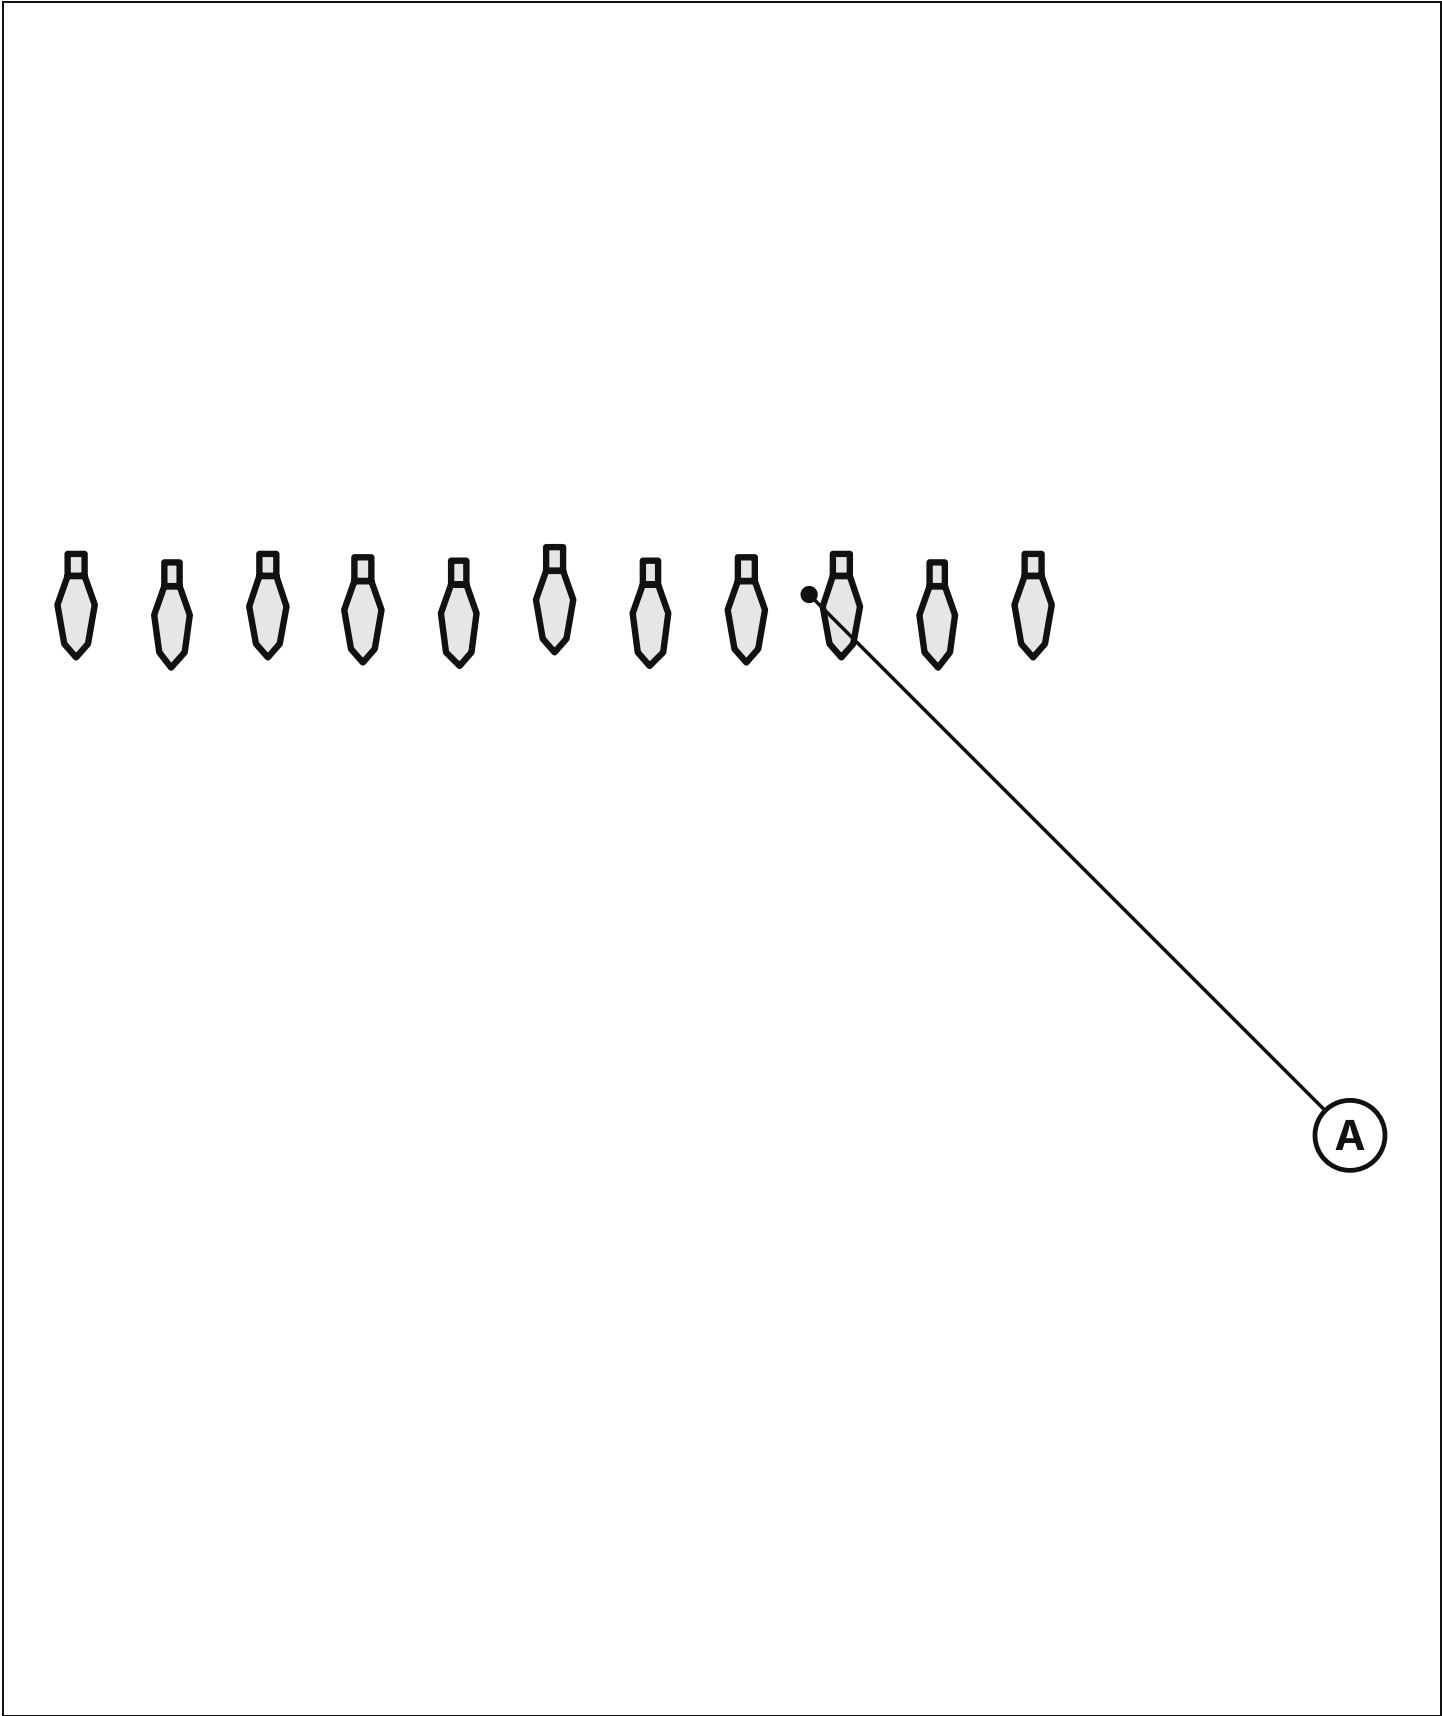

B**x1**

Solar panel

Power

Solar version: the panel charges the battery by day. Battery version: runs on batteries.

Exploded view

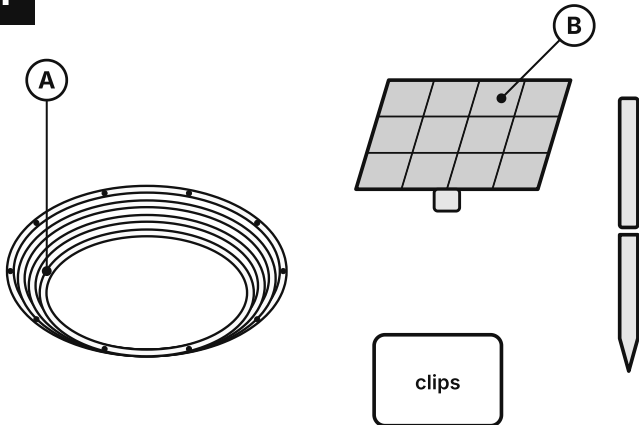

A Solar string light ×1

B Solar panel ×1

Installation

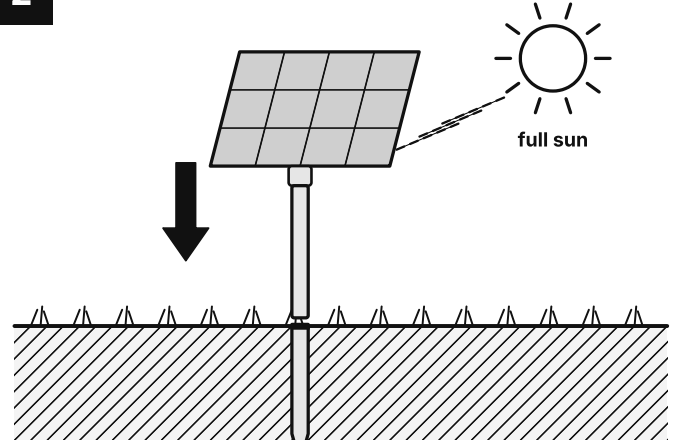

STEPS 1-6 OF 7

1

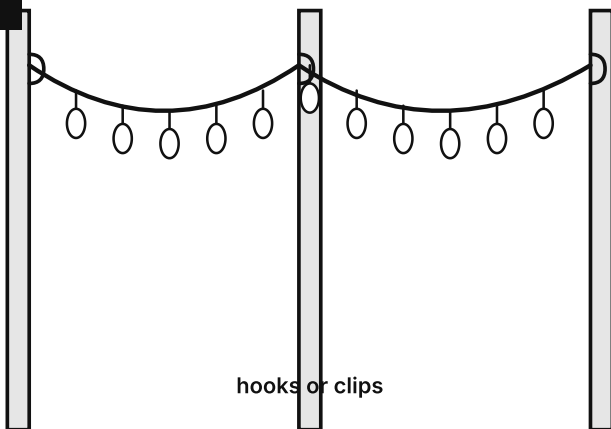

Unpack the lights (A) and solar panel (B).

2

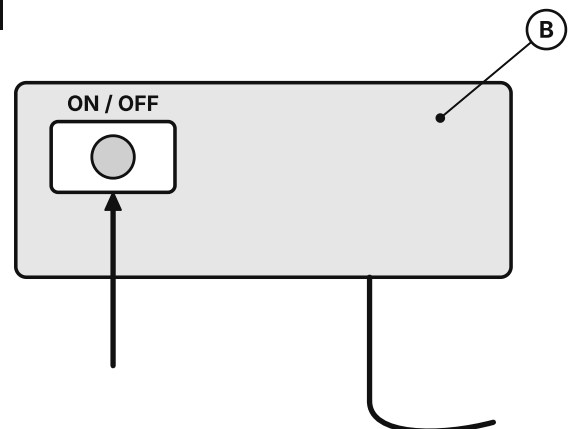

Push the panel stake into the soil where it gets full sun.

3

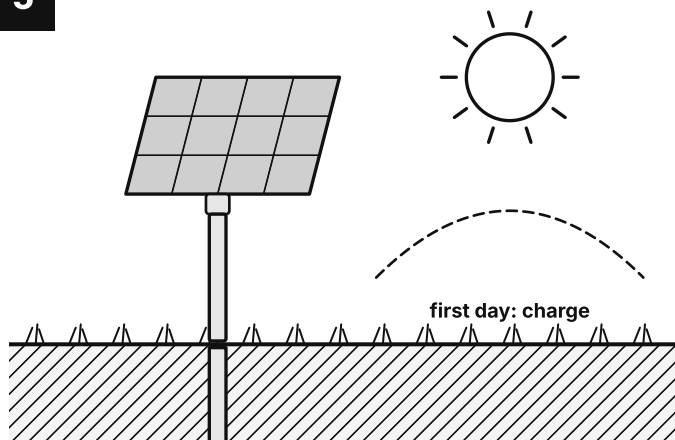

Hang the lights on hooks or clips. Never use staples or nails through the cable.

4

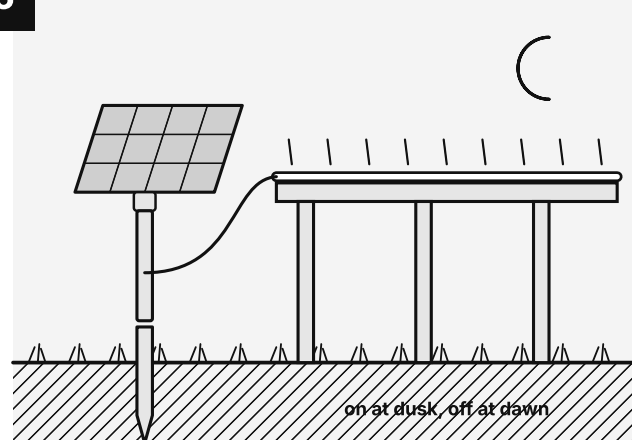

Switch on at the panel.

5

Let it charge in the sun for the first full day.

6

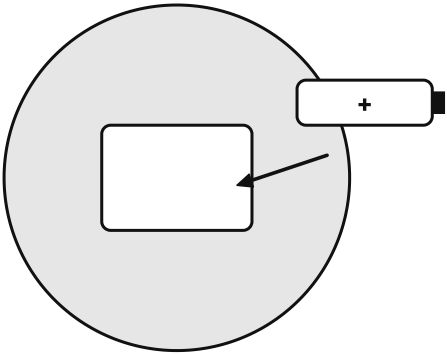

The lights come on by themselves at dusk.

Installation

STEP 7 OF 7

7

Battery version: fit the batteries, then switch on.

Care

- Wipe clean with a soft, dry cloth.
- Keep the solar panel free of dust and leaves so it charges fully during the day.
- Switch the fixture off and let it cool before cleaning.

Troubleshooting

Problem	What to do
Lights do not come on	Check the panel is switched on and gets several hours of direct sun. Charge a full day.
Short run time	Clean the panel and move it out of shade. Run time drops on cloudy days.
