Installation

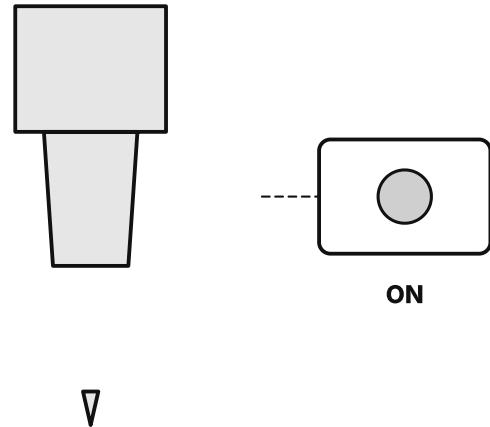

STEPS 1-5 OF 5

1

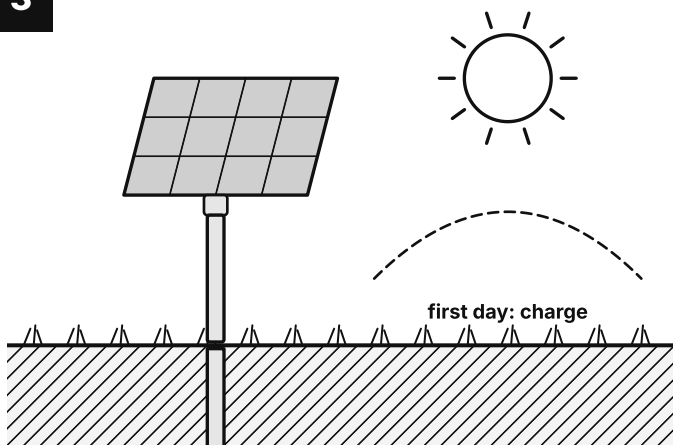

Push the stake (B) into the soil where the light gets full sun.

2

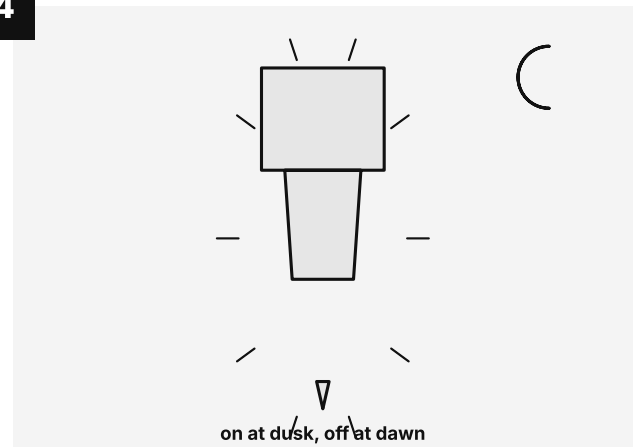

Switch the light (A) on.

3

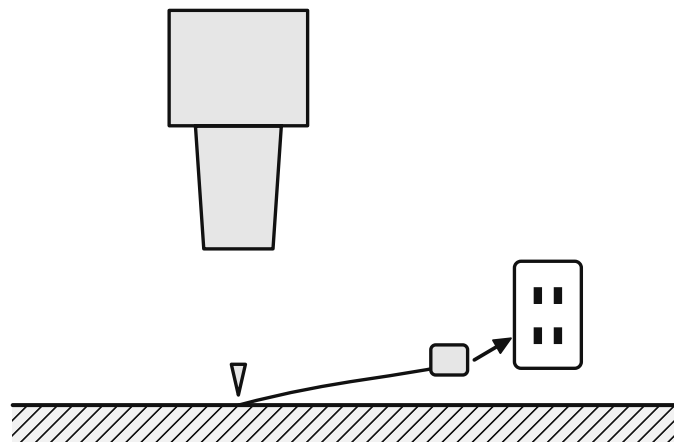

Let it charge in direct sun for the first full day.

4

It comes on by itself at dusk and goes off at dawn.

5

Hardwired DC12V version: connect the lights to a 12V DC low-voltage supply, following its instructions. Never connect them straight to mains power.

Care

- Wipe clean with a soft, dry cloth.
- Keep the solar panel free of dust and leaves so it charges fully during the day.
- Clean the lens or shade with a soft damp cloth and dry it straight away.

Troubleshooting

Problem	What to do
Lights do not come on	Check the panel is switched on and gets several hours of direct sun. Charge a full day.
Short run time	Clean the panel and move it out of shade. Run time drops on cloudy days.
