Care & Setup

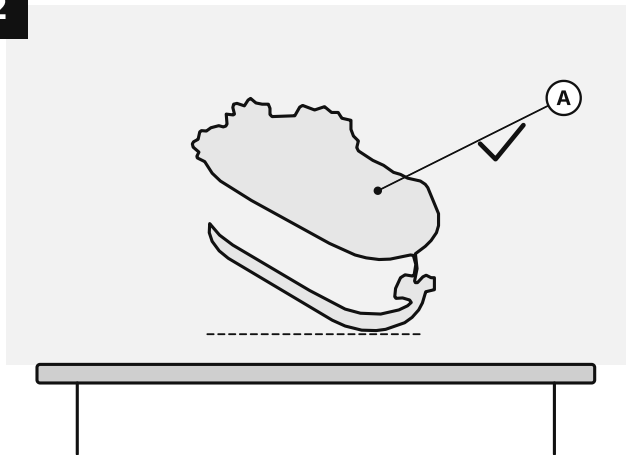

STEPS 1–5 OF 5

1

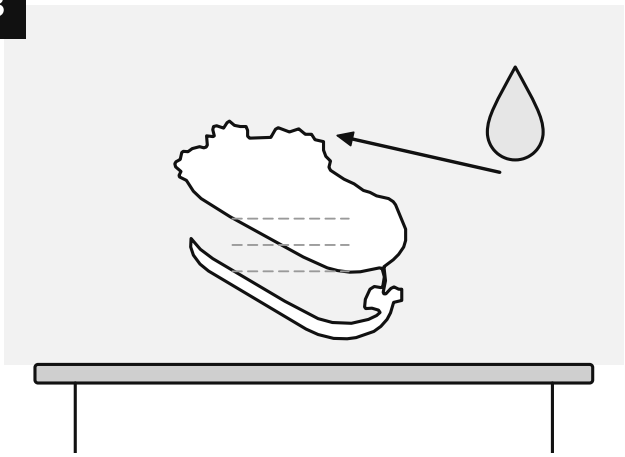

Unpack everything and remove all the packing material.

2

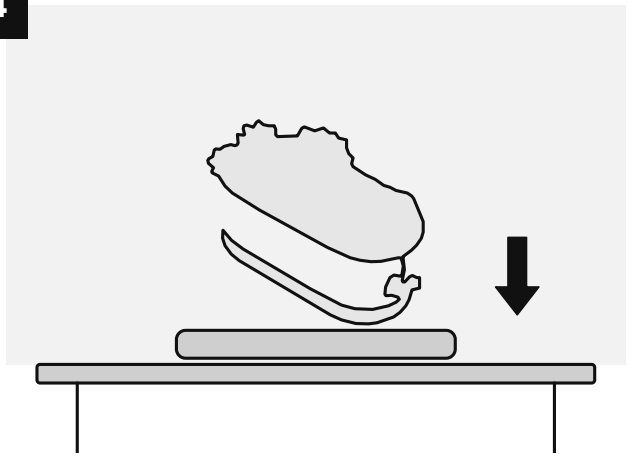

Plant two or three small succulents along its length.

3

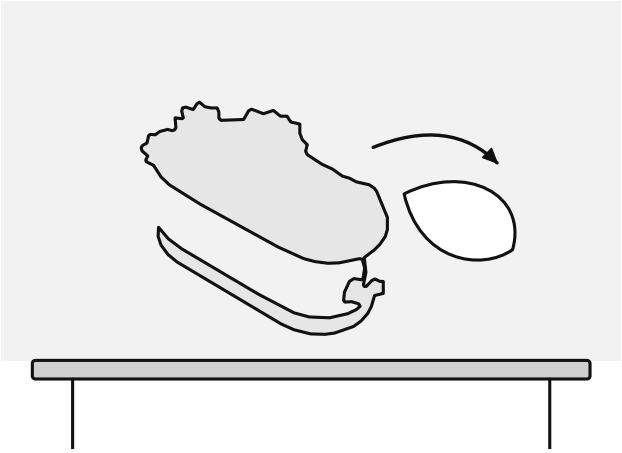

Water lightly; it holds little soil and drains fast.

4

Set the drip tray (B) under the pot to catch runoff.

5

Dust with a soft, dry cloth or brush.

Care

- Dust with a soft, dry cloth or brush.
- Wipe spills promptly and keep away from prolonged moisture.
