Read all instructions before you start, and keep them for future reference.

### Installation precautions

1. Turn off the power at the breaker before you start, and check the wires are dead with a voltage tester.
2. If you are not sure how to wire it, have a licensed electrician do it. Follow local electrical codes.
3. Make sure the ceiling or wall box can carry the weight of the fixture.
4. For outdoor use, keep every connection inside a weatherproof box.

ON

Turn the breaker on and switch on.

## Care

- Wipe clean with a soft, dry cloth.
- Dry the housing immediately if it gets wet so the finish is not marked, and do not use abrasive pads on it.
- Use only mild soapy water on the diffuser, as solvents will scratch or cloud it.

## Troubleshooting

| Problem                | What to do                                                                                     |
|------------------------|------------------------------------------------------------------------------------------------|
| Light does not come on | Check the breaker and wall switch. Turn the power off and check each wire connection is tight. |
| Light flickers         | Turn the power off and re-make the connections. On a dimmable model, use an LED-rated dimmer.  |
| Fixture sits crooked   | Loosen the mounting screws, level the bracket and retighten.                                   |
