

Moorland

Solar garden light

MODEL: HA078030-0

DESIGN DRAWING

Read all instructions before you start, and keep them for future reference.

Installation precautions

1. Place the panel where it gets several hours of direct sun.
2. Do not open the sealed panel or battery compartment.
3. Keep the panel clear of leaves and snow.

No tools needed

Parts list

CHECK ALL PARTS BEFORE YOU START

A

x1

Solar light

B

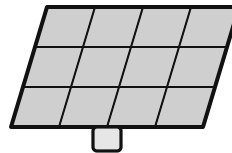

x1

Ground stake

C

x1

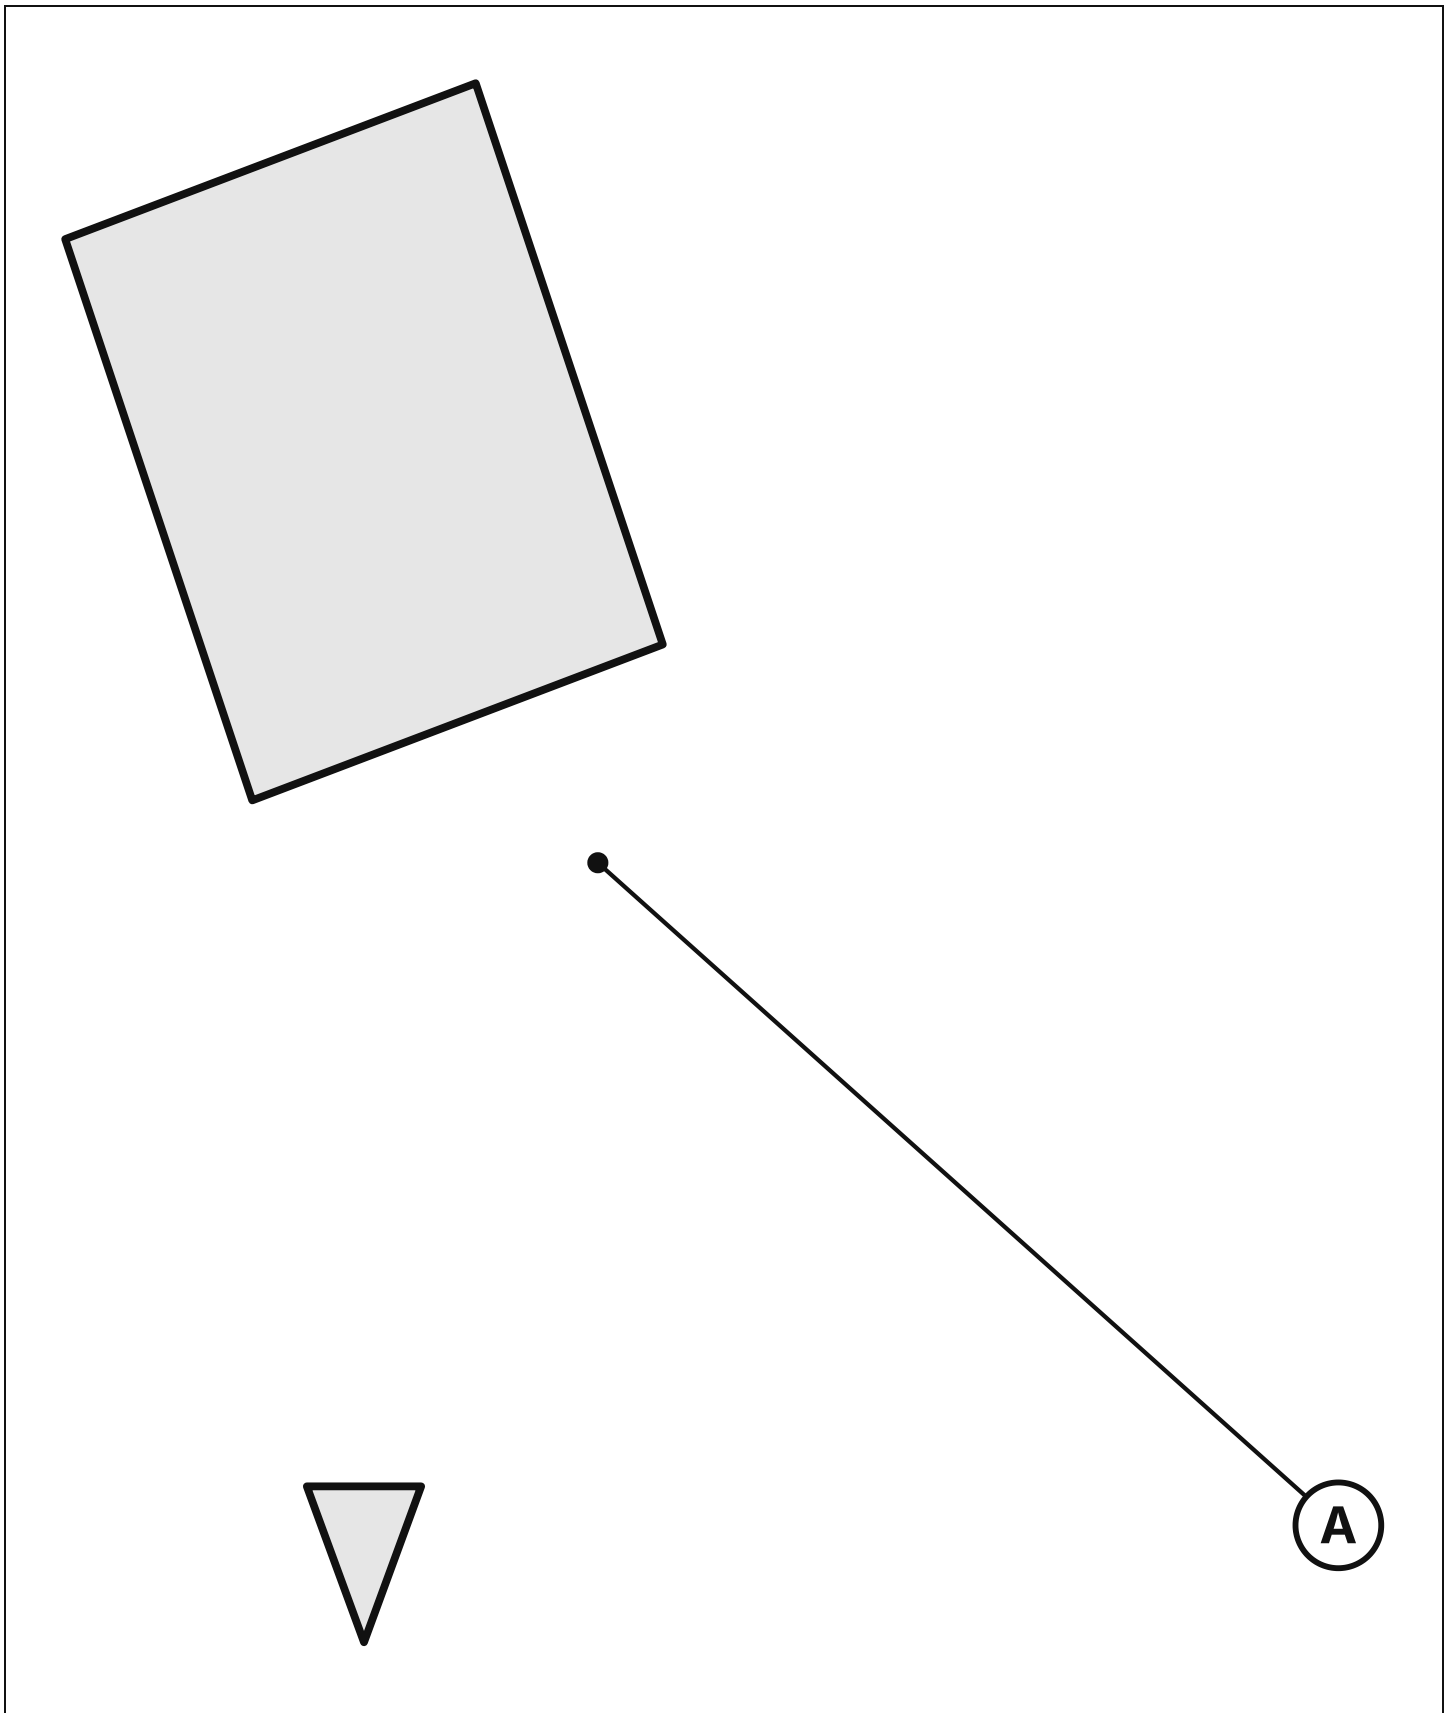

Solar panel

Power

Solar powered: the built-in panel charges the battery by day.

Exploded view

A Solar light ×1

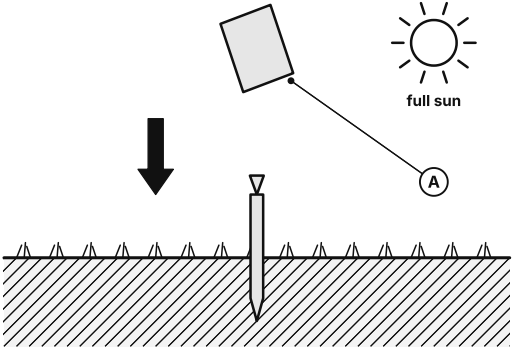

B Ground stake ×1

C Solar panel ×1

Installation

STEPS 1-4 OF 4

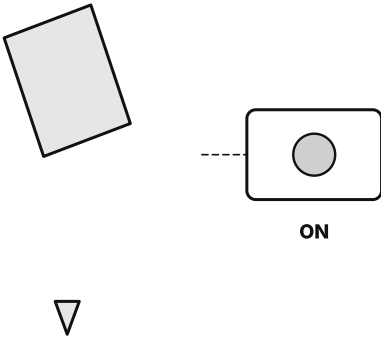

1

A diagram showing a rectangular solar panel tilted upwards. A line connects the bottom of the panel to a point labeled 'A' on the ground. A sun icon is labeled 'full sun'. A downward arrow points to a stake labeled 'B' being pushed into the soil. The ground is represented by a hatched area.

Push the stake (B) into the soil where the light gets full sun.

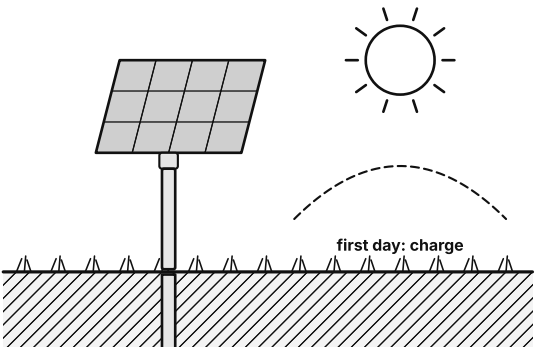

2

A diagram showing the solar panel tilted. A dashed line connects the bottom of the panel to a switch icon labeled 'ON'. Below the switch is a small downward arrow.

Switch the light (A) on.

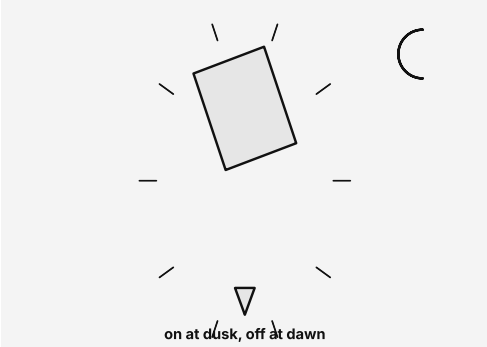

3

A diagram showing the solar panel mounted on a stake. A sun icon is shown. A dashed arc indicates the sun's path. The text 'first day: charge' is written below the arc.

Let it charge in direct sun for the first full day.

4

A diagram showing the solar panel tilted. A sun icon is shown. A dashed arc indicates the sun's path. The text 'on at dusk, off at dawn' is written below the arc.

It comes on by itself at dusk and goes off at dawn.

Care

- Wipe the solar panel clean whenever it dulls, because a dirty panel is the usual reason a solar light stops holding charge.
- Wipe the body with a soft, damp cloth and dry it afterwards.
- Do not use abrasive cleaners.

Troubleshooting

Problem	What to do
Lights do not come on	Check the panel is switched on and gets several hours of direct sun. Charge a full day.
Short run time	Clean the panel and move it out of shade. Run time drops on cloudy days.
