Wicker

Outdoor floor light, hardwired or solar

MODEL: LI001786-0

DESIGN DRAWING

16" size: 15.7 inches tall to the top of the handle, 10.6 inches across; 24" size: 23.6 inches tall to the top of the handle, 11.4 inches across

⚠ **Read all instructions before you start, and keep them for future reference.**

Installation precautions

1. Turn off the power at the breaker before any wiring, and have a licensed electrician make the connection.
2. Keep every connection inside a weatherproof box.
3. Stand it on a firm, level surface where it cannot tip.
4. Place the panel where it gets several hours of direct sun.

Tools needed

Phillips screwdriver

Wire stripper

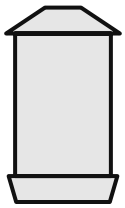

Voltage tester

No tools needed

Parts list

CHECK ALL PARTS BEFORE YOU START

A ×1

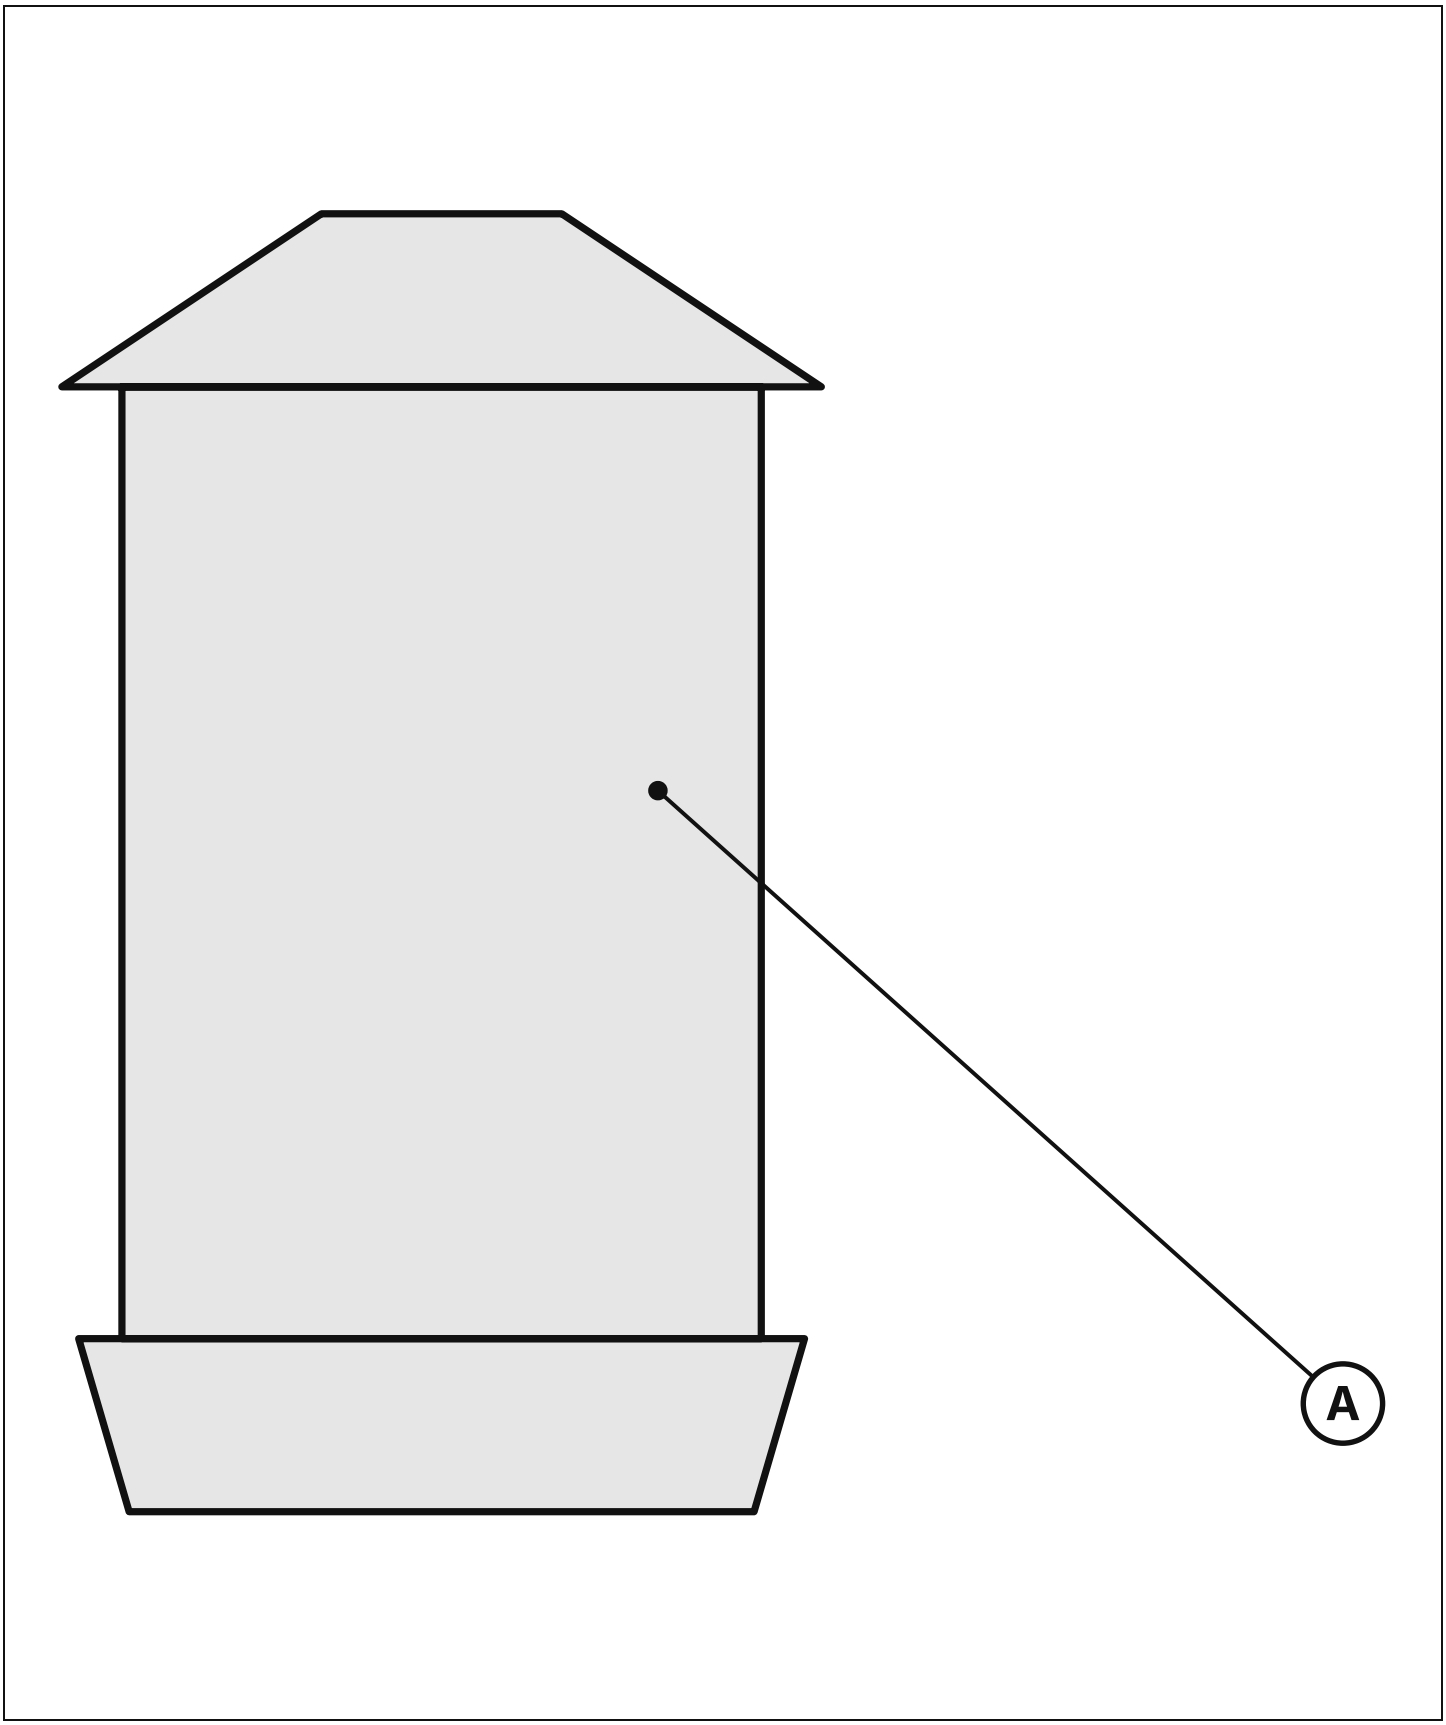

Outdoor light

Wiring

	Wire	House supply	Fixture
L	Live (hot)	black	black or marked wire
N	Neutral	white	white or ribbed wire
G	Ground	green or bare copper	green or green-yellow

Hardwired: Join each pair with wire connectors. Connect ground to the green screw on the bracket or plate if there is one. Solar: no wiring. The built-in panel charges the battery by day.

Installation

STEPS 1–6 OF 6

1

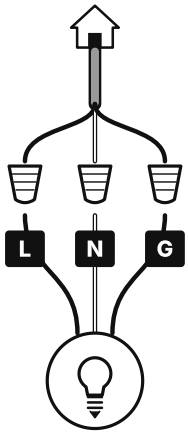

Hardwired: Stand it on a firm, level surface near the outdoor power supply.

2

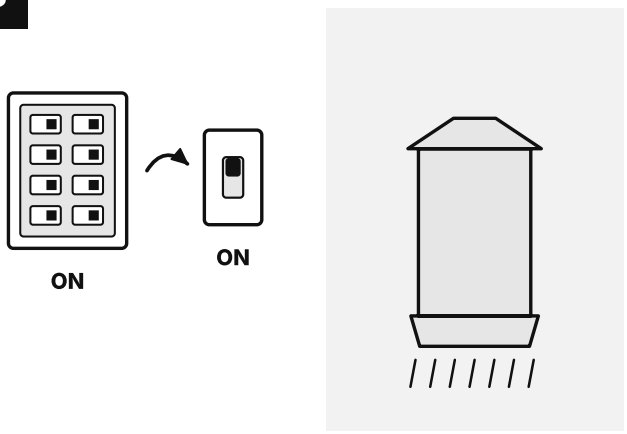

House supply

- **L** **Live (hot)** black
- **N** **Neutral** white
- **G** **Ground** green or bare

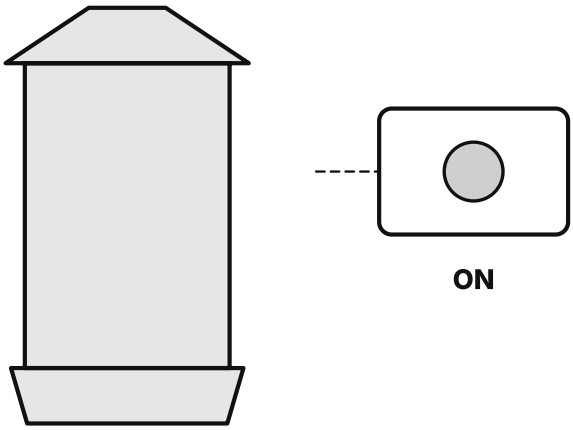

Hardwired: Have an electrician connect it in a weatherproof box with the power off: L to L, N to N, G to G.

3

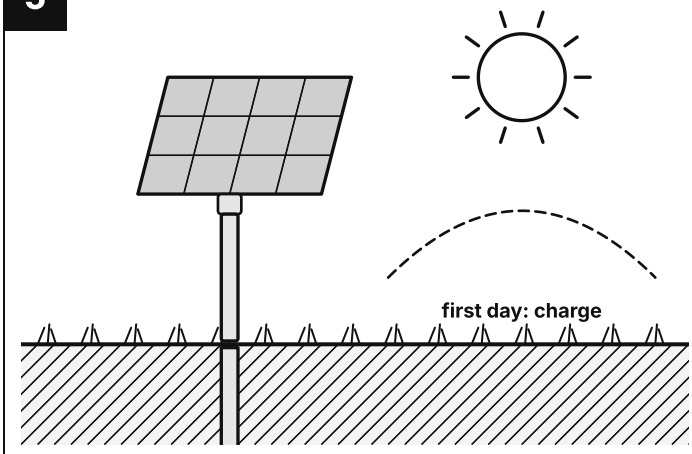

Hardwired: Turn the power on and switch on.

4

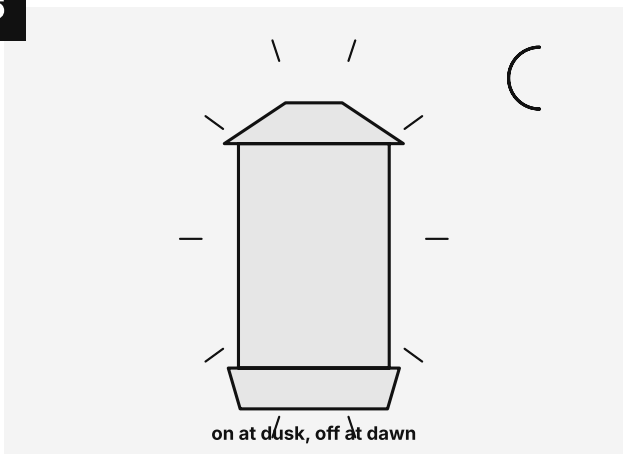

Solar: Switch the lamp on.

5

Solar: Let it charge in direct sun for the first full day.

6

Solar: Place it where you want the light. It comes on by itself at dusk.

Care

- Wipe clean with a soft, dry cloth.
- Use a soft brush to clear dust and leaves from between the slats, and keep it out of standing water.
- On the solar model, wipe the panel so it charges well.

Troubleshooting

Problem	What to do
Light does not come on	Check the breaker and wall switch. Turn the power off and check each wire connection is tight.
Light flickers	Turn the power off and re-make the connections. On a dimmable model, use an LED-rated dimmer.
Lights do not come on	Check the panel is switched on and gets several hours of direct sun. Charge a full day.
Short run time	Clean the panel and move it out of shade. Run time drops on cloudy days.
